Re: Update on the Criminal Prosecution Against State Gas Limited & others

Dear shareholders,

Another top Italian criminologist has been appointed. He has confirmed that there is a wider conspiracy to defraud. He has suggested 80% recovery of the shares in PL 231 (Reids Dome gas field), removal of State Gas Limited as operator, issuing additional proceedings individually against each of the board members of State Gas Limited, Triangle Energy Global and all the lawyers which were involved in the case for serious organised crime. As previously advised the Courier Mail will be sued for defamation and the obstruction of justice.

Sincerely,  
The Management
