Dear Sir,

Just read your interesting article!

You state,

"Dome has even gone so far as to serve court papers in Brisbane on both deputy chairman Tony Bellas and the company's head of corporate & commercial Lucy Snelling."

In addition, Mr Crowley has been served (see attached).

Baynton claims that the firm has engaged lawyers in Australia and Italy, he then contradictorily and irrationally states he believes the documents ***"might actually be fake"***.

So fake that the Attorney General in department in Australia served the papers on Smelling and ***"couldn't locate"*** Baynton and Snelling, obstructing the course of justice failed to comply and disclose where Baynton had absconded to (see attached)!!

So fake that SLF lawyers based in Brisbane at the request of the Salerno court's bailiffs served one of the co-conspirators, Bellas, the court documents.

You state why Italy and alleged former directors come ***"from the old country"***. The reason why is because we were denied justice in a clear case of **fraud, misrepresentation and severe gaming of the juridical system**. We were denied summary judgement multiple times, when the case was

shown to be a complete fabrication to steal the asset from Dome. The internal emails of 25 November 2018, **which State Gas ever so kindly provided to Dome** before the mediation shows a crystal-clear premediated fraud, which cannot be argued (see attached)! Also find the attached chronology of the fraud. Indisputable! State Gas filed a fabricated/fraudulent case that a counteroffer was accepted, yet Smelling stated in her email of the 25 November 2018,

*"So, **while accepting this offer (or something close)** will resolve things in a relatively amicable manner, it may well mean we lose the opportunity to remove them from the permit at relatively low cost. **However having made this offer we can be confident that they will not go easily and will look to use this offer to show how unreasonable we are being etc and our real objective is to get rid of them. Not sure that is the end of the world, but we will need to be ready to take lots of flak.**"*

To which, Mr Baynton, replied, "**Just wasn't sure if we should be putting all of this in writing/e-mail though.**"

Furthermore, the **ASX, ASIC & DNRME** acknowledged receipt of Dome's case (see attached emails). Maybe Mr Baynton will question the validity of these too!!!! It appears your paper is not really looking at the evidence and continues to publish in favour of the perpetrators hence for clarity we shall serve other papers that may take notice of the evidence of fraud and corruption.

Dr Bruno Denantes

I am Domes attorney and I wish to notify that we will subpoena your news paper to attend trial in Italy and answer defamatory charges.

My reply to Mr Baynton false statement that the legal action is false in the mist of clear evidence of conspiracy to defraud will follow with extradition of Mr Baynton to answer fraud and corruption charges in Italy.

I take this opportunity to

state once again that it is clearly that Stategas and its officers have been notified and warned and we have an affidavit from the lawyer in Brisbane to prove that they were served.

We have sued our counterparts in Italy and filed the documents with the court of Salerno for the cause set in June to seek compensation for damages for fraudulent conduct!

I am horrified to read from your article that one of Italian Dome directors

could be a criminal when Baynton and the gang have stolen every single cent and such a director never received salary.

As for Italy we stand high as the mother culture of humanity.

<https://www.google.com/amp/s/theculturetrip.com/europe/italy/articles/the-top-10-countries-impacting-global-culture/%3famp=1>

It is now clear reading your absurd illogical article as to why my clients

are in these predicaments !!

Both Domes own lawyers have stated

To my clients that Domes is dealing with the Australian strongest manipulators, both lawyers will be called to testify on oath as they are a part to the crime

Avvocati Associati Salerno
